SUPER BLUE 2 LT™

anti-marking, anti-static systems®

**A Completely
Integrated, Disposable
Anti-Marking, Anti-Static Kit**

SUPER BLUE 2^{LT}TM

anti-marking, anti-static systems[®]

All the features of a **SUPER BLUE 2[®]** system in a fully integrated, disposable anti-marking, anti-static kit designed specifically for today's high quality and fast paced demands.

ABSOLUTELY HASSLE FREE

No more net adjustments. No more net replacements. The **SUPER BLUE 2[®] LTTM** system incorporates the **STRIPENET[®]** anti-marking net and the base cover into a single integrated piece. Simply remove and replace when needed.

REQUIRES NO WASHING

No more wasted down time cleaning your anti-marking system. The **SUPER BLUE 2[®] LTTM** system is 100% wash-free. And it's maintenance free also. Just take off the old one and put on a new one.

EASY INSTALLATION

No more mechanical clamping systems.* No more spray adhesives. No more messy installation procedures. Simply peel the backing off the specially formulated tape and stick it to your clean cylinder. And when it's time, it comes off without leaving that sticky residue behind.

*Adhesive styles work on most presses with clamping systems, avoiding use of the clamps! Non-adhesive styles are available for most clamping systems.

VIRTUALLY STATIC FREE

No more cling. No more ink build up. No more marking. No more wasted sheets.

REDUCES WASTE AND INCREASES PROFITS

Make life a little easier on yourself. Wouldn't you rather be more productive instead of messing around with your anti-marking system.

Available for most press models.
